Why is this issue important – and to whom?

Employer provided health interventions
e.g. EAP, physiotherapy , vocational rehab

Regulators (e.g. HSE)

The employer (or potential employer)
providing a healthy workplace - with
guidance from health professionals and
others with the right skills and competence

Government

Council for Work and Health,
professional organisations, unions

**The health of
people in work
- or trying to
get into work
or to return to
work**

Occupational health services advising
employers on their health needs, prevention
of ill health and injury, and on supporting
those with health conditions and
disabilities to sustain them in work

Media

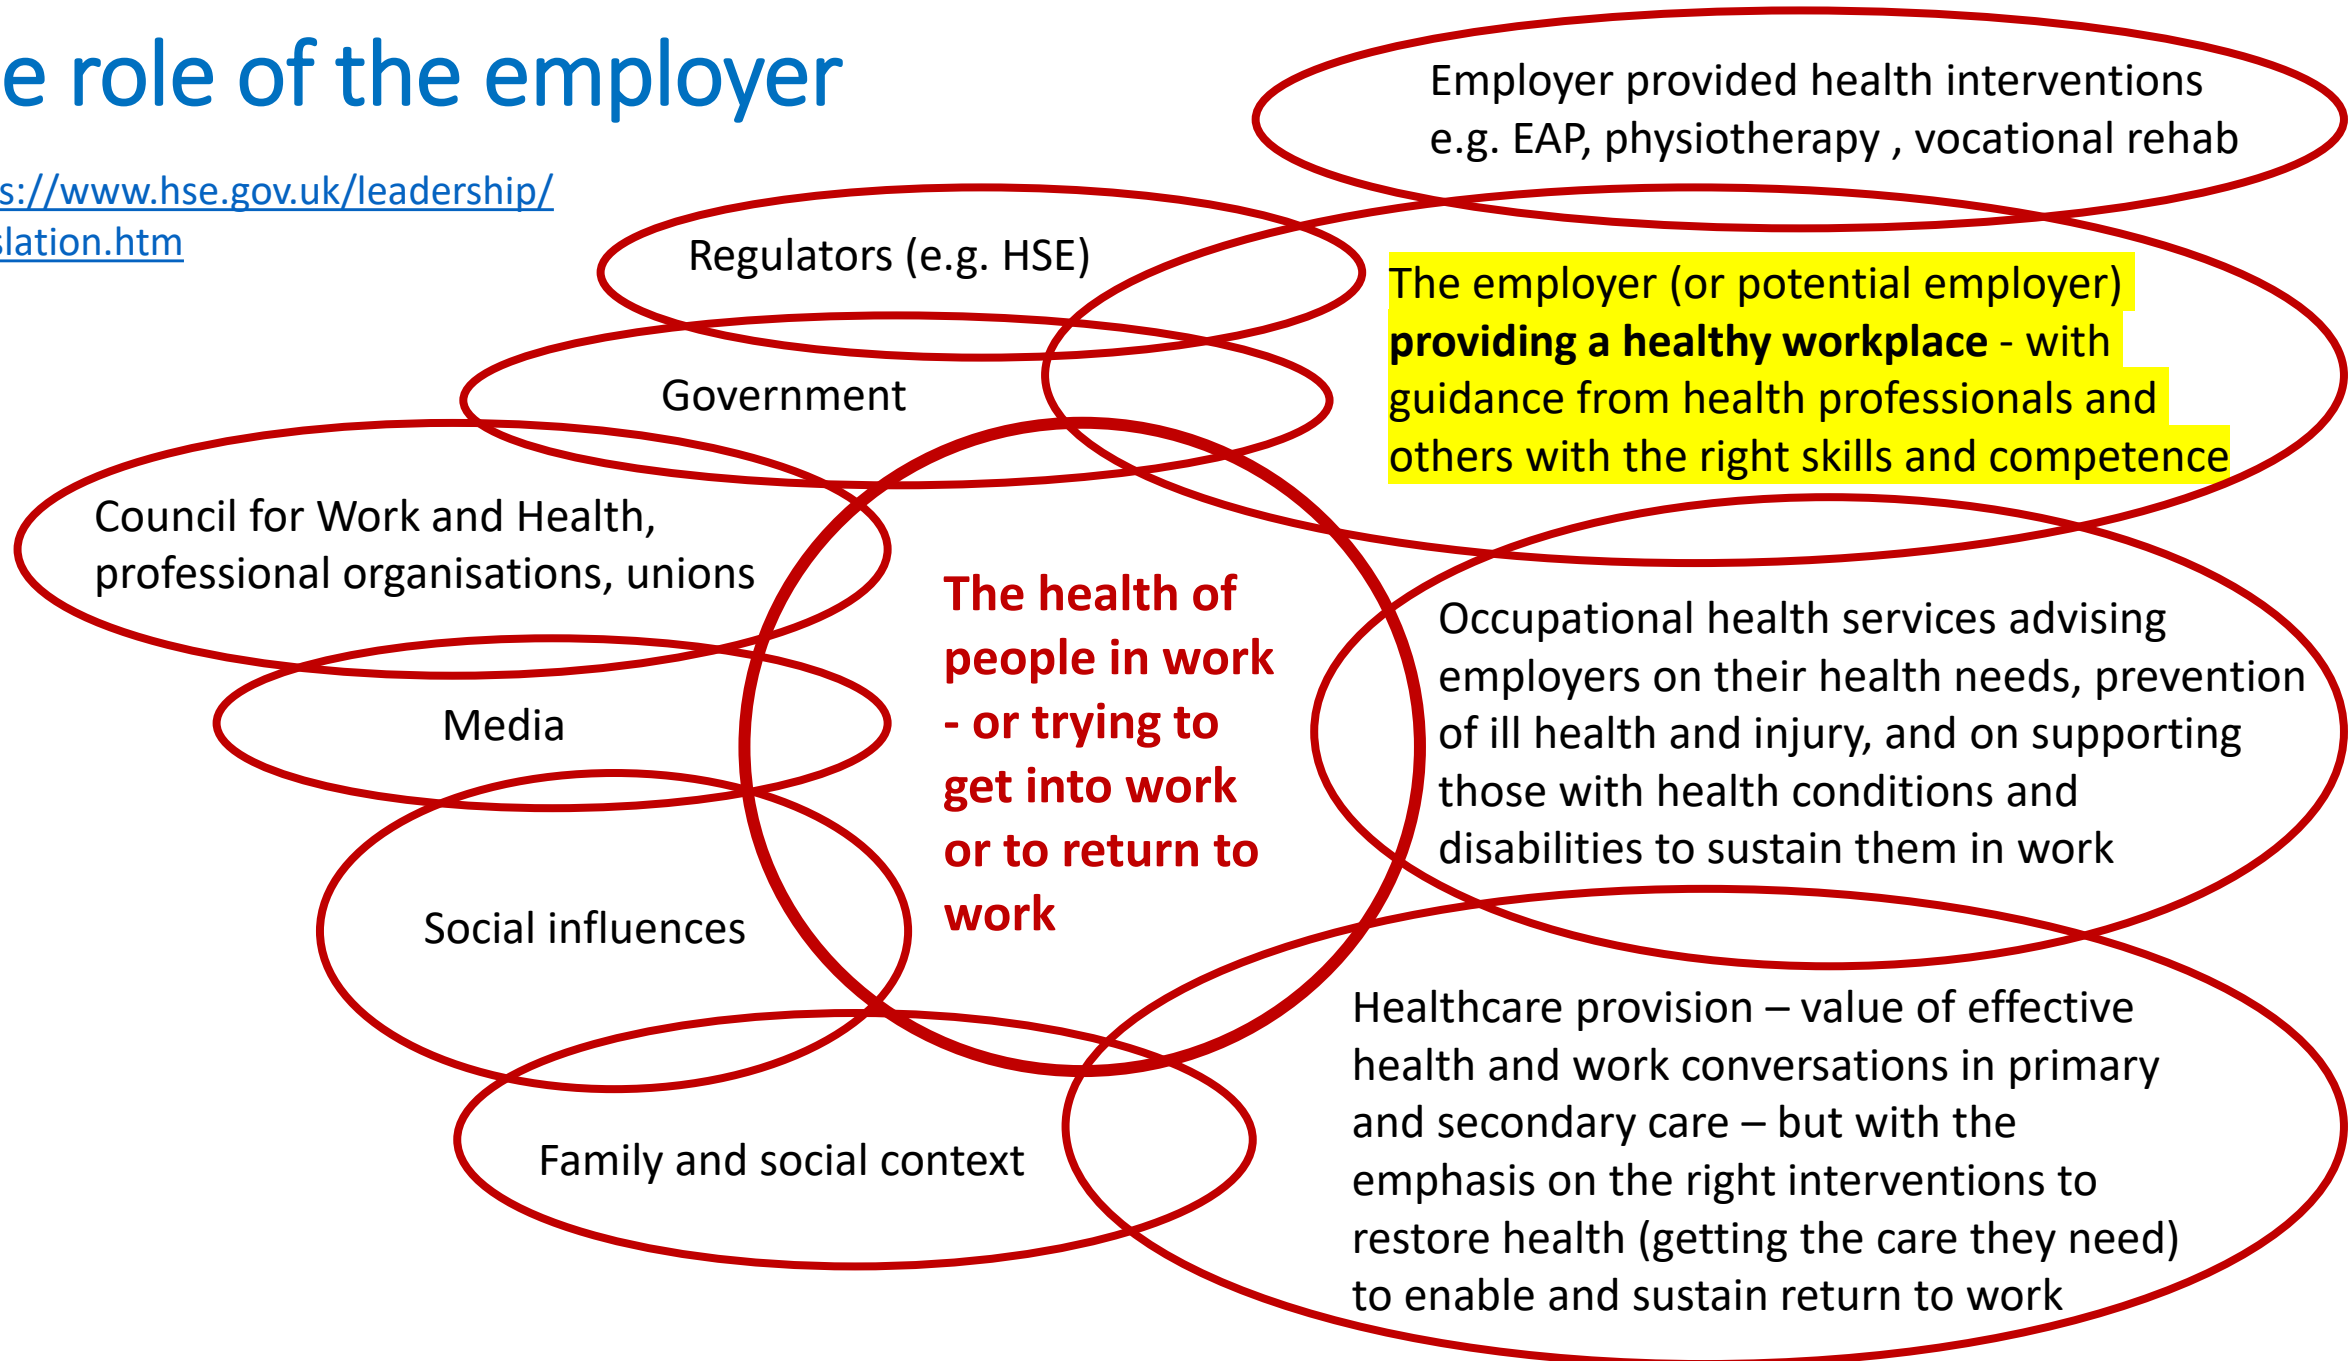

Social influences

Healthcare provision – value of effective
health and work conversations in primary
and secondary care - with the emphasis on
the right interventions to restore health
(getting the care they need) to enable and
sustain return to work

Family and social context

The role of the employer
