Occupational Health Physician

- **Location: Central London**
- **Salary Range: £100000-£140000 per annum, dependent upon experience + attractive benefits**
- **Contract Type: Permanent 40 hours per week (We are also open to part time interest)**
- **Shifts/Pattern or work: Hybrid role, part office, part home - we can be very flexible.**

We have an exceptional career opportunity for **Occupational Health Physicians (OHP)** to join us here at HCA Healthcare UK. We are specialist in corporate business healthcare with unrivalled to world-class subject matter experts and consultants . As OHP at HCA, you work with some of the leading organisation around the globe, supporting their health and wellbeing agenda, developing preventative health strategies and consulting on their health risk management.

As an experienced Occupational Health Doctor, you will be joining experienced OH teams that are equipped and resourced to have fulfilling, rewarding careers and are passionate about their work and achievements. In addition, our team's outstanding successful track record provides educational support for businesses and managers to help care for employees to ensure they perform and flourish in their roles. This is where the position is truly rewarding.

As companies move into new ways of hybrid working, our OH specialists combine their deep understanding of employee and business needs in this demanding environment, advising clients on reactive care and prevention, including managing psychological care and physical wellbeing in the workplace.

Your week will come with lots of variety, supporting and advising individuals by **telephone, telemedicine and face-to-face support.**

- Occupational health case management
- Sickness and absence management
- Occupational health assessments
- Business travel vaccinations and advice

Successful applicants will need;

- To be passionate about achieving healthy outcomes, approachable, caring, supportive, fostering a culture of pro-active engagement, and partnering with corporate client services.
- Primary Medical Degree, MBBS, GMC Registration and License to Practice in the UK 'with a further qualification in Occupational Medicine; MFOM strongly preferred' .
- Excellent IT skills, familiar with telemedicine and electronic data records.

Additional Information

HCA UK Primary Care's highly experienced occupational health team have provided specialist occupational health services across all areas of the UK's public and private sectors for over 30 years and is fully accredited by the Safe, Effective, Quality Occupational Health Service (SEQOHS).

Employment package extras: We will look after you with private healthcare insurance for you and your family, a contributory pension scheme and a vast range of additional rewards, including paid study leave, and support for career development.

If you want to join HCA Healthcare UK as an Occupational Health Physician and be part of an organisation shaping a healthier tomorrow, we invite you to apply. Our application process is quick and easy, completing a 2-minute questionnaire and uploading a cv.
